

Our goal is to digitalize the global diagnostics market and revolutionize the information available to consumers through a combination of high-end technologies, precise sensor technology and artificial intelligence.

Process Owner MEMS Development (m/f/d)

Full-time, immediate hire

Your Tasks

You will supervise the MEMS activities at digid.

- You define and validate specifications for wafer and MEMS.
- You develop the CADs and optimize MEMS structures
- You use FEM simulation and experimental methods to optimize our existing MEMS designs
- You communicate with wafer/ MEMS provider and fabs
- You create and implement quality standards for wafer/ MEMS manufacturers according to ISO 13485 and GMP

You will operate our high-end Lab Equipment and custom-built analysis tools

- You actively support the supply chain management
- You contribute to overall development tasks

Your profile

- You hold a master's degree in engineering or physics (e.g. microsystems engineering or related disciplines)
- You have profound experiences in MEMS development
- You have an in-depth understanding of customized wafer manufacturing processes
- The experience in FEM simulation especially of MEMS would be a strong plus
- You ideally have work experiences under the regulations of a quality management system of medical technology or ISO standards
- You are fluent in English on professional topics
- The understanding of electronics would be a plus
- You have a passion for tiny things, are a team player and a good communicator

We offer

- We offer you a long-term job in an international and fast-growing startup in medical technology
- We want to collaborate with you in a highly motivated team
- We offer you varied activities in a pleasant, personal and dynamic environment
- We offer you the chance to experience the development of a newly founded company and to advance it through your own creative ideas
- We offer you an open and appreciative corporate culture
- We offer you flat hierarchies and short decision-making processes
- We offer you free gym membership

We look forward to receiving your convincing application to jobs@digid.com!
